

TEAM ANALYTICS AND COACHING TRAINING: CLOVERLEAF CERTIFICATION

Presented by Yellow Seed Consulting

What will be covered during this course:

- How to use AI-based team analytics to identify & diagnose team issues (using the Cloverleaf Team Profile)
- How to analyse and interpret team profiles
- How to create a data-based, personalised team optimisation strategy to support and increase team performance
- How to facilitate team coaching conversations and team development sessions using data insights from the Cloverleaf platform
- How to coach/mentor team leaders

Unique value-add:

We will be utilising action-oriented learning methods such as gamification, case studies, practical scenarios and role-plays, and lots of group discussions to ensure that you walk away with lots of practical learning and actionable strategies to implement successful team analytics and coaching in your own working environment. After attending the training, you will also be certified to use the Cloverleaf Team Analytics Platform.

Unique value-add:

Professionals in fields such as Human Resources, Learning & Development, Organisational Development, Training, Change Management and so on, with responsibility for supporting and enhancing team performance and leadership development.

Cost:

R750 p/p

Time:

08:30-16:30

Date:

26 July 2023

The link to the virtual session will be shared upon registration/payment completion.
